Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant questioned the finality of the Final Office Action sent 9/27/07 since allowable subject matter had been indicated for Claim 23 in the first office action sent 6/5/07. Applicant indicated the limitations of claim 23 had been incorporated into amended claim 21 in the response to the first office action received 8/17/07. Examiner concluded the finality was proper, since claim 21 was broadened by removing the limitation of "the control voltage".

Applicant submitted a proposed amendment to claim 21. Examiner considers the proposed amendment received 10/23/07 to have new limitations since the limitation of "an oscillator input of the second switch-mode power supply unit for reducing the switching frequency" from the original claim was removed.
